### Candidate for Vice President of Clubs

Clubs are the heart of student life at the University at Buffalo Student Association. They create community, leadership opportunities, and spaces where students can turn their ideas into real impact. I'm running for Vice President of Clubs because every organization at UB deserves accessible support, clear guidance, and the resources to grow.

One of the biggest concerns club leaders share is that club services are not always accessible or easy to navigate. As Vice President of Clubs, I will work to expand club services and ensure organizations clearly understand the resources available to them.

My priorities include:

- **Expanding Club Services:** Make SA resources easier to access so every club- new or established- can get the support it needs.
- **Clear Roles and Responsibilities:** Create more transparency around how club leaders interact with Student Association so students know exactly where to go for help.
- **Simplifying Processes:** Streamline registration, funding, and event approvals so leaders can focus on building their organizations rather than navigating bureaucracy.
- **Encouraging Collaboration:** Support partnerships between clubs to create larger events and stronger campus connections.

What sets me apart as a candidate is my focus on practical changes that make running a club easier for student leaders. Clubs shouldn't have to struggle to access the support meant for them.
